PMVR14SO, SH, SX - 14" Square Series w/Back Gasket *(Effective Oct. 2020)*
INSTALLATION INSTRUCTIONS

CAUTION: BEFORE CONNECTING THE FIXTURE TO A POWER SUPPLY, MAKE SURE THE POWER IS SWITCHED OFF.

PARAMOUNT
INDUSTRIAL **LIGHTING**

3625 Swenson Ave. • St. Charles, IL 60174
800.900.1730

GENERAL:

1. Before starting the installation, make sure all electricity has been turned off and electrical breaker has been locked out and tagged out.

2. To ensure the success of the installation, be sure to read these instructions and review the diagrams thoroughly before beginning.

3. All electrical connections must be in accordance with local codes, ordinances, or the National Electrical Code.

4. These fixtures are intended to be mounted directly to the building structure, installed over a J-Box or conduit outing.

5. All luminaires to be installed by a qualified electrician.

NOTE: The important safeguards and instructions appearing in this manual are not meant to cover all possible conditions and situations that may occur.

INSTALLATION

1. Loosen 4 bolts to remove Lens, Gasket, and Lens Frame to access screws to LED/Driver Tray, remove screws securing LED/Driver Tray and retain screws for later use.
   IMPORTANT: *Notice Lens Frame orientation for ASYMMETRICAL Models.*

2. Before mounting center over J-Box if used, secure to surface with screws (provided by others ¼" nominal diameter).
   IMPORTANT: *Ensure fixture is level before tightening.*

3. Connect wires from source to fixtures.
   IMPORTANT: *Make sure all connections follow code requirements.*

4. Re-attached the LED/Driver Tray with retained screws from step 1.

5. Re-attached Lens, Gasket, and Lens Frame to fixture.

IMPORTANT: *All FC│SSL products can be cleaned with non-abrasive and chemical free agents. Use a soft cloth with mild detergent on exterior only.*
