Rugged & Reliable LED Luminaires

From concept to creation, Paramount has been designing and fabricating protected lighting since 1949. We pioneered the lighting industry and set standards with our innovations! Our unwavering dedication to precision, quality, efficiency and reliability is equally enduring as our luminaires. Specializing in challenging applications such as Hazardous Location, Food Processing, Cleanroom, Transit & Municipal, Industrial & Commercial, Wet Location, and Custom Designs, Paramount thrives in harsh environments. Bring your vision to light, turn to Paramount for durable, Built-In-America luminaires designed for tough applications.

We encourage you to visit our website, call us at 800.521.5405, or reach out to your local representative for further inquiries about product information, capabilities, availability or pricing. Our experienced team will personally assist you in finding the best solution for a successful lighting application.

Lighting for Every Application

Paramount's lighting products have been utilized in automotive manufacturing, bridges & tunnels, chemical facilities, cleanrooms, food processing, grocery stores, transit & municipal, hospitals, and more! Use the QR codes for application information, and to view all the Paramount luminaires approved for each location.

Cleanroom

Paramount's cleanroom luminaires are designed and built to the most exacting standards, providing exceptional illumination with high integrity.

Food Processing

Paramount offers a wide variety of food processing luminaires that meet or exceed the most stringent National Sanitation Foundation requirements.

Hazardous

Paramount offers luminaires for specific hazardous locations constructed with heavy-duty materials and sealants to ensure high integrity.

PARAMOUNT
INDUSTRIAL LIGHTING

Industrial & Commercial

Industrial and Commercial lighting is a Paramount specialty! We offer heavy-duty luminaires for your most difficult applications.

Transit & Municipal

Paramount's quality, durable luminaires have been used by the Transportation industry for over 75 years.

Wet Location

Paramount's high-quality luminaires are built to the most rigorous Wet Location standards. They are ETL listed and have been subjected to rain and/or sprinkler test to certify suitability.

Aerolux® & Minilux® Series

The **Aerolux & Minilux** were designed as a Cleanroom luminaires with a tapered lens to minimize air turbulence when a vertical laminar flow system is required. They surface mount to the bottom of a 2" HEPA filter grid ceiling used in typical Cleanrooms. The light controlled acrylic lens is easily removed for servicing. These luminaires are ETL/cETL Listed Dry Location. Due to their unique design, these luminaires have also been used in Industrial, Commercial, and Architectural settings.
